AI-Powered Resume & Interview Preparation Platform

Made with GAMMA

Problem Statement

> "There is no single intelligent platform that helps users build resumes, enhance content using AI, and prepare for real-world interviews across different cultures."

🎓 Student struggles

- What to write
- How to structure content
- How to improve resume quality

❌ Existing tool limitations

- Limited or paid
- No personalization
- No interview practice system

🔗 Resume writing and interview preparation are separate problems, with no unified platform.

🤖 Users also lack AI guidance and real-time feedback.

🌍 Many users cannot prepare for different interview styles, including India, US, startups, and MNCs.

Made with GAMMA

Proposed Solution

Core experience

- 📄 Create professional, ATS-friendly resumes with easy step-by-step guidance
- 🤖 Improve resume content using AI (Gemini) to enhance summaries, experience, and project descriptions
- 🌍 Practice interviews based on real-world global hiring styles, including India, US, Europe, Startup, and MNC formats, with culture-specific questions

Feedback & guidance

- ⭐ Get AI-based feedback, including score, communication style match, and personalized improvement tips
- 📊 Track performance and understand how well answers fit different interview styles
- 💬 Access a 24/7 AI chatbot for career guidance, resume tips, and interview preparation
